

List of Figures

Figures	Pages
Figure 1: Conceptual Cash Flow of a typical Transportation Project	14
Figure 2: The Four essential Criteria of Transportation System Sustainability	24
Figure 3: Sustainability Indicator Pyramid	29
Figure 4: The Process of the Multi-Criteria Decision Analysis	35
Figure 5: AHP Structure Hierarchy	43
Figure 6: The Hierarchy Structure	52
Figure 7: Visual Composite Sustainability Index	57
Figure 8: Historic Development of Raml Tram Ridership	70
Figure 9: APTA Master Plan 2006	71
Figure 10: Alexandria Regional Metro	75
Figure 11: Projects Options for Evaluation and Prioritization	77
Figure 12: The Economic Analysis of Project 1 (LRT)	79
Figure 13: Tariff Structure	80
Figure 14: The Visual Results of the Feasibility Analysis	81
Figure 15: Weighted Score of each Criterion and the Projects Options	83
Figure 16: Rating of the Candidate Projects Options (WSM)	83
Figure 17: Rating of the Candidate Projects Options (MFEP)	85
Figure 18: Local Priority of each Criterion before weighting and the Options	87
Figure 19: Rating of the Candidate Projects Options (AHP)	87
Figure 20: Relative Importance of the Sustainable Criteria	91
Figure 21: Relative Importance of the Indicators	92
Figure 22: Global Priorities of the Projects Options	93
Figure 23: Indicators and Options according to Weighted Vectors	94
Figure 24: Arranging of Options according to their Composite Indexes	95
Figure 25: The Visual Composite Sustainability Levels of the four High Priority Options	96

List of Tables

Tables	Pages
Table 1: Comparative Analysis of Economic Feasibility Techniques	21
Table 2: Examples of Possible best-Practice Indicators	28
Table 3: Example of a Goal-based Framework	30
Table 4: Examples of Indicators presenting the Transport System Efficiency of project options	31
Table 5: AHP Preference Scale	43
Table 6: The step-by-step Data Flow in the CETP-Structure and its Goals	54
Table 7: The Official Operation of Raml Tram Lines	70
Table 8: The General Description of APTA Projects	72
Table 9: The Main Technical Characteristics of APTA Projects	72
Table 10: The Operation Elements of the propose Regional Metro	75
Table 11: Cost Estimations of the proposed Regional Metro (Value January 1997)	76
Table 12: The Project Options	76
Table 13: The Criteria and their Relative Weights	82
Table 14: Criteria Weights Scenarios	84
Table 15: Rank of the Candidate Projects according to the Weights Scenarios	84
Table 16: Decision Criteria for AHP	86
Table 17: Selected Indicators for CETP Application	89
Table 18: Composite Indexes	95
