

List of Figures

Figure (1)	Typical Heteroatoms and Aromatic Compounds found in Petroleum.....	6
Figure (2)	High Pressure Catalyst Activity Testing Unit	31
Figure (3)	Effect of Reaction Temperature on Product Yield of HVGO during Hydrotreating Process	42
Figure (4)	Effect of Reaction Temperature on Hydrodesulfurization of HVGO during Hydrotreating Process	42
Figure (5)	Effect of Reaction Temperature on Aniline Point of HVGO during Hydrotreating Process	43
Figure (6)	Effect of Reaction Temperature on Diesel Index of HVGO during Hydrotreating Process	43
Figure (7)	Effect of Reaction Temperature on Total Saturates of HVGO during Hydrotreating Process	44
Figure (8)	Effect of Reaction Temperature on Total Aromatics of HVGO during Hydrotreating Process	44
Figure (9)	Effect of Hydrogen Pressure on Product Yield of HVGO during Hydrotreating Process	47
Figure (10)	Effect of Hydrogen Pressure on Hydrodesulfurization of HVGO during Hydrotreating Process	47
Figure (11)	Effect of Hydrogen Pressure on Aniline Point of HVGO during Hydrotreating Process	48

VIII

Figure (12)	Effect of Hydrogen Pressure on Diesel Index of HVGO during Hydrotreating Process	48
Figure (13)	Effect of Hydrogen Pressure on Total Saturates of HVGO during Hydrotreating Process	49
Figure (14)	Effect of Hydrogen Pressure on Total Aromatics of HVGO during Hydrotreating Process	49
Figure (15)	Effect of Liquid Hourly Space Velocity on Product Yield of HVGO during Hydrotreating Process	52
Figure (16)	Effect of Liquid Hourly Space Velocity on Hydrdesulfurization of HVGO during Hydrotreating Process	52
Figure (17)	Effect of Liquid Hourly Space Velocity on Aniline Point of HVGO during Hydrotreating Process	53
Figure (18)	Effect of Liquid Hourly Space Velocity on Diesel Index of HVGO during Hydrotreating Process	53
Figure (19)	Effect of Liquid Hourly Space Velocity on Total Saturates of HVGO during Hydrotreating Process	54
Figure (20)	Effect of Liquid Hourly Space Velocity on Total Aromatics of HVGO during Hydrotreating Process	54
Figure (21)	Effect of Different Operating Conditions on Coke Deposition at Different Reactor Zones	58
Figure (22)	Effect of Time on Stream on Coke Yield Using Different Feed Stocks during Hydrotreating Process	65
Figure (23)	Effect of Time on Stream on Metal Content Using Feed Blend during Hydrotreating Process	67

IX

Figure (24)	Effect of Time on Stream on Catalyst Surface Area during Hydrotreating Process of HVGO and Feed Blend	69
Figure (25)	Effect of Time on Stream on Catalyst Pore Volume during Hydrotreating Process of HVGO and Feed Blend	69
Figure (26)	Infrared Spectroscopic Analysis of HVGO Hydrotreatment Catalyst.....	79
Figure (27)	Infrared Spectroscopic Analysis of Feed Blend Hydrotreatment Catalyst	81
Figure (28)	X-ray Diffraction Patterns of HVGO Hydrotreated Catalyst	83
Figure (29)	X-ray Diffraction Patterns of Feed Blend Hydrotreated Catalyst	85

Abbreviations

HDS : Hydrodesulfurization

HDN : Hydrodenitrogenation

HDO : Hydrodeoxygenation

HDM : Hydrodemetallization

HYD : Hydrogenation

HDT : Hydrotreating

FCC : Fluid Catalytic Cracking

TOS : Time on Stream

HVGO : Heavy Vacuum Gas Oil

HVR : Heavy Vacuum Residue

DMDS : DiMethyl DiSulfide

LHSV : Liquid Hourly Space Velocity

THF : TetraHydroFuran

AR : Atmospheric Residue

HDH : Hydrogenolysis
