**LIST OF TABLES**

	<b>Page</b>
<b>Table (1)</b> : Fungal genera isolated from different collected sources.	<b>49</b>
<b>Table (2)</b> : Effect of gamma irradiation on growth diameter of selected <i>Curvularia</i> spp. collected from different sources.	<b>51</b>
<b>Table (3)</b> : Effect of gamma irradiation on growth diameter of selected <i>Alternaria</i> spp. collected from different sources.	<b>54</b>
<b>Table (4)</b> : Effect of gamma irradiation on growth diameter of selected <i>Fusarium</i> spp. collected from different sources.	<b>57</b>
<b>Table (5)</b> : Effect of gamma irradiation on the biomass of the resistant and sensitive <i>Curvularia</i> species.	<b>60</b>
<b>Table (6)</b> : Effect of gamma irradiation on the biomass of the resistant and sensitive <i>Alternaria</i> species.	<b>63</b>
<b>Table (7)</b> : Effect of gamma irradiation on the biomass of the resistant and sensitive <i>Fusarium</i> species.	<b>65</b>
<b>Table (8)</b> : Effect of gamma irradiation on the survival count of <i>Curvularia lunata</i> and <i>Curvularia tuberculata</i> in saline solution and lupine seeds.	<b>68</b>
<b>Table (9)</b> : Effect of gamma irradiation on the survival count of <i>Alternaria alternata</i> and <i>Alternaria tenuissima</i> in saline solution and chicken feed.	<b>72</b>
<b>Table (10)</b> : Effect of gamma irradiation on the survival count of <i>Fusarium oxysporum</i> and <i>Fusarium semitectum</i> in saline solution and chicken feed.	<b>76</b>

## List of Tables

---

<b>Table (11)</b>	: D <sub>10</sub> -values of the studied experimental fungal species in saline solution and substrate.	<b>79</b>
<b>Table (12)</b>	: Total protein content (%) of the selected fungal species.	<b>81</b>
<b>Table (13)</b>	: Amino acids composition (mg/g) of the selected fungal species.	<b>84</b>
<b>Table (14)</b>	: Total lipids content (%) of the selected fungal species.	<b>92</b>
<b>Table (15)</b>	: The relative percentage of the main fatty acid composition of the selected fungal species.	<b>95</b>
<b>Table (16)</b>	: Nucleic acids content of the selected fungal species	<b>97</b>
<b>Table (17)</b>	: Effect of gamma irradiation on the total protein content of the selected fungal species.	<b>100</b>
<b>Table (18)</b>	: Effect of gamma irradiation on the amino acids composition (mg/g) of the selected fungal species.	<b>102</b>
<b>Table (19)</b>	: Effect of gamma irradiation on the nucleic acids content of the selected fungal species.	<b>117</b>
<b>Table (20)</b>	: Effect of gamma irradiation on the survival count of <i>Curvularia lunata</i> inoculated into lupine seeds during storage periods.	<b>119</b>
<b>Table (21)</b>	: Effect of gamma irradiation on the survival count of <i>Alternaria alternata</i> inoculated into chicken feed during storage periods.	<b>122</b>
<b>Table (22)</b>	: Effect of gamma irradiation on the survival count of <i>Fusarium oxysporum</i> inoculated into chicken feed during storage periods.	<b>124</b>

## LIST OF FIGURES
