

LIST OF TABLES

Table	Page
(1) Comparison between the two studied groups according to age and weight.....	25
(2) Comparison between the two studied groups according to sex.....	26
(3) Comparison between the two studied groups according to duration of surgery.....	27
(4) Descriptive of the studied cases according to heart rate in group K.....	33
(5) Descriptive of the studied cases according to heart rate in group D.....	34
(6) Comparison between the studied groups according to heart rate.....	35
(7) Descriptive of the studied cases according to mean arterial blood pressure in group K.....	39
(8) Descriptive of the studied cases according to mean arterial blood pressure in group D.....	40
(9) Comparison between the studied groups according to mean arterial blood pressure.....	41
(10) Descriptive of the studied cases according to oxygen saturation percentage (SpO2%) in group K.....	44
(11) Descriptive of the studied cases according to oxygen saturation percentage (SpO2%) in group D.....	45
(12) Comparison between the studied groups according to oxygen saturation percentage (SpO2%).....	46
(13) Comparison between the two studied groups according to assement of sedation.....	48
(14) Comparison between the two studied groups according to assessment of ease of separation and venipuncture.....	50
(15) Descriptive of the studied cases according to assessment of recovery using "Vancouver sedative recovery scale for children" in K group.....	53
(16) Descriptive of the studied cases according to assessment of recovery using "Vancouver sedative recovery scale for children" in D group.....	54
(17) Comparison between the studied groups according to assessment of recovery using "Vancouver sedative recovery scale for children".....	55
(18) Comparison between the two studied groups according to discharge time.....	57
(19) Comparison between the two studied groups according to assessment of amnesia.....	60

LIST OF FIGURES

Table		Page
(20)	Comparison between the two studied groups regarding age	28
(21)	Comparison between the two studied groups regarding weight.....	28
(22)	Comparison between the two studied groups regarding sex	29
(23)	Comparison between the two studied groups regarding duration of surgery...	29
(24)	Comparison between the two studied groups regarding heart rate	35
(25)	Comparison between the two studied groups regarding mean arterial blood pressure.....	41
(26)	Comparison between the two studied groups regarding oxygen saturation(SaO2 %)	46
(27)	Comparison between the two studied group regarding sedative score.....	49
(28)	Comparison between the two studied groups regarding ease of separation and ease of induction score system	51
(29)	Comparison between the two studied groups regarding recovery time.....	55
(30)	Comparison between the two studied groups according to discharge time	58
(31)	Comparison between the two studied groups regarding amnesia	61

LIST OF ABBREVIATIONS

AAP	American academy of paediatrics
ACEP	American college of emergency physicians
ASA	American society of anesthesiologist
CNS	Central nervous system
CSF	Cerebrospinal fluid
ECA	Electrocardiogram
ER	Emergency room
GA	General anaesthesia
HR	Heart rate
ICV	Intensive care unit
IN	Intranasal
IV	Intravenous
JCAHO	Joint commission accreditation of healthcare organization
MIC	Microgram
NMDA	N-methyl-d-aspartate
NPO	Nothing by mouth
OR	Operating room
PSA	Procedural sedution and analgesia
SPO2	Mean of oxygen saturation
