

Acknowledgment

First and foremost, I feel always indebted to Allah, the most kind and merciful, helping me to achieve this work.

*I wish to express my heartfelt thanks, respect, and profound gratitude to **PROF. Dr. Mohamed Ahmed A. Sultan**, Professor of Anaesthesia and Intensive Care, Faculty of Medicine, Mansoura University for his valuable guidance and encouragement, support, cooperation and for his efforts and time given for the fulfillment of this work. I feel greatly honored to work under his supervision.*

*I am so grateful to **Assist. PROF. Dr. Karima Fuad Elshamy**, Assist. Prof. of Medical Surgical Nursing, Faculty of Nursing, Mansoura University for her prompt assistance, supervision, understanding, and over helpful support. Words can never express my hearty thanks and indebtedness for her valuable advice during the various phases of the thesis.*

*I would like to express my sincere thanks and appreciation to **Dr. Hanaa H. Elsayed Ahmed**, Lecturer of Critical Care Nursing, Faculty of Nursing, Mansoura University for her guidance, support, close supervision and great effort she exerted throughout this work.*

*I wish to extend my loving appreciation to my family for their support, patience, love, and encouragement especially **my father, my mother, my husband**.*

Finally, I wish to offer my thanks and gratitude to nursing and medical staff at Emergency Department of Emergency Hospital for the great help which they have offered me and for providing me with all means to fulfill this study

List of abbreviations

ABG	Arterial Blood Gases
AF	Atrial Fibrillation
AHA	American Heart Association
APTT	Activated Partial Thromboplastin Time
ASA	American Stroke Association
BP	Blood Pressure
CBC	Complete Blood Count
CT	Computed Tomography
ED	Emergency Department
EMS	Emergency Medical Services
ENs	Emergency Nurses
EBP	Evidence Based Practice
ICH	Intra Cranial Hemorrhage
INR	International Normalization Ratio
MRI	Magnetic Resonance Image
NIHSS	National Institute of Health and Stroke Scale
PT	Prothrombin Time
rtPA	Recombinant Tissue Plasminogen Activator
SAH	Sub Arachnoid Hemorrhage

Introduction	1
Aim of the study	6
Review of the literature	7
▪ Concept of emergency nursing	7
▪ Concept of evidence-based practice	9
▪ Stroke	18
○ Pathophysiology of Ischemic Stroke	19
○ Risk factors for stroke	22
○ Emergency Management and Nursing Care of Acute Ischemic Stroke.	22
Material and Methods	38
Results	43
Discussion	64
Conclusion and recommendations	76
Summary	78
Appendices	
- Appendix 1:(protocol)	
- Appendix 2: (tool)	
- Appendix 3: Letter of jury	
- Appendix 4: consent form	
Arabic summary	1

LIST OF TABLES

Table		Page No.
1.	Percentage distribution of socio-demographic data of the nurses.	46
2.	Nurses' general knowledge about ischemic stroke	49
3.	Nurses' knowledge about emergency nursing care of ischemic stroke patients	50
4.	Nurses' knowledge about complications of ischemic stroke	51
5.	Nurses' total knowledge about evidence-based nursing practice of ischemic stroke patients	53
6.	Mean scores of nurses' knowledge about evidence-based nursing practice of ischemic stroke patients	54
7.	Relation between mean of nurses' general knowledge about ischemic stroke and their socio-demographic data.	56
8.	Relation between mean knowledge of nurses about emergency nursing care of ischemic stroke patients and their socio-demographic data.	58
9.	Relation between mean knowledge of nurses about complications of ischemic stroke and their socio-demographic data.	60
10.	Relation between total mean knowledge of nurses about evidence-based nursing practice of ischemic stroke patients and their socio-demographic data	62
11.	Correlation between scores of nurses' total knowledge about evidence-based nursing practice of ischemic stroke patients and age	63

LIST OF FIGURES

Figure		PageNo.
1	Classifications and levels of evidence based practice	12
2	Inferior view of the brain's blood supply	14
3	Ischemic stroke	15
4	Stroke subtype and annual incidence	16
5	Ischaemic stroke arising from a cardiac embolus	16
6	Thrombotic stroke	17
7	Ischemic core and penumbra after ischemic stroke	20
9	Frequency distribution of nurses by age	47
10	Frequency distribution of nurses by educational level	47
11	Frequency distribution of nurses by job title	47
12	Frequency distribution of nurses regarding their years of experience	48
13	Frequency distribution of nurses regarding attendance training programs conferences, or workshops about nursing care of ischemic stroke patients	48
