

LIST OF TABLES

Table		page
(1)	The Bishop Score	7
(2)	The Modified Bishop Score	8
(3)	Comparison between the two studied groups regarding the age.	17
(4)	Comparison between the two studied groups regarding the weight.	18
(5)	Maternal history of the studied group.	18
(6)	Blood picture and random blood sugar of the two studied groups.	19
(7)	Comparison between the two studied groups regarding the Bishop base score before and after 24 hours of administration	20
(8)	Comparison between the two studied groups regarding to occurrence of cervical ripening.	21
(9)	Comparison between the two studied groups regarding incidence of headache and hypotension.	21
(10)	Comparison between the two studied groups regarding the mode of delivery.	22
(11)	Comparison between the two studied groups regarding birth weight and APGAR score at 5 min.	22

LIST OF FIGURES

Figure		page
(1)	Prostaglandin molecule	6
(2)	Nitric oxide synthase	10

LIST OF ABBREVIATIONS

BMI	Body mass index
Bpp	Biophysical profile
CRL	Corticotrophin releasing hormone
CST	Contraction stress test
GTS	Glycerol trinities
IL	Interleukin
IMN	Isosorbide mononitrite
INOS	Inducible isoform of nitric oxide synthase
NADPH	Nicotinamide adenine dinucleotide phosphate
NO	Nitrio oxide
NOS	Nitric oxide synthase
PAF	Platelets activating factor
PGF2	Prostaglandin F2
UA	Umbilical artery
