SAFEER

All kids love the toybox.

The toybox has a variety of pretty toys in it.

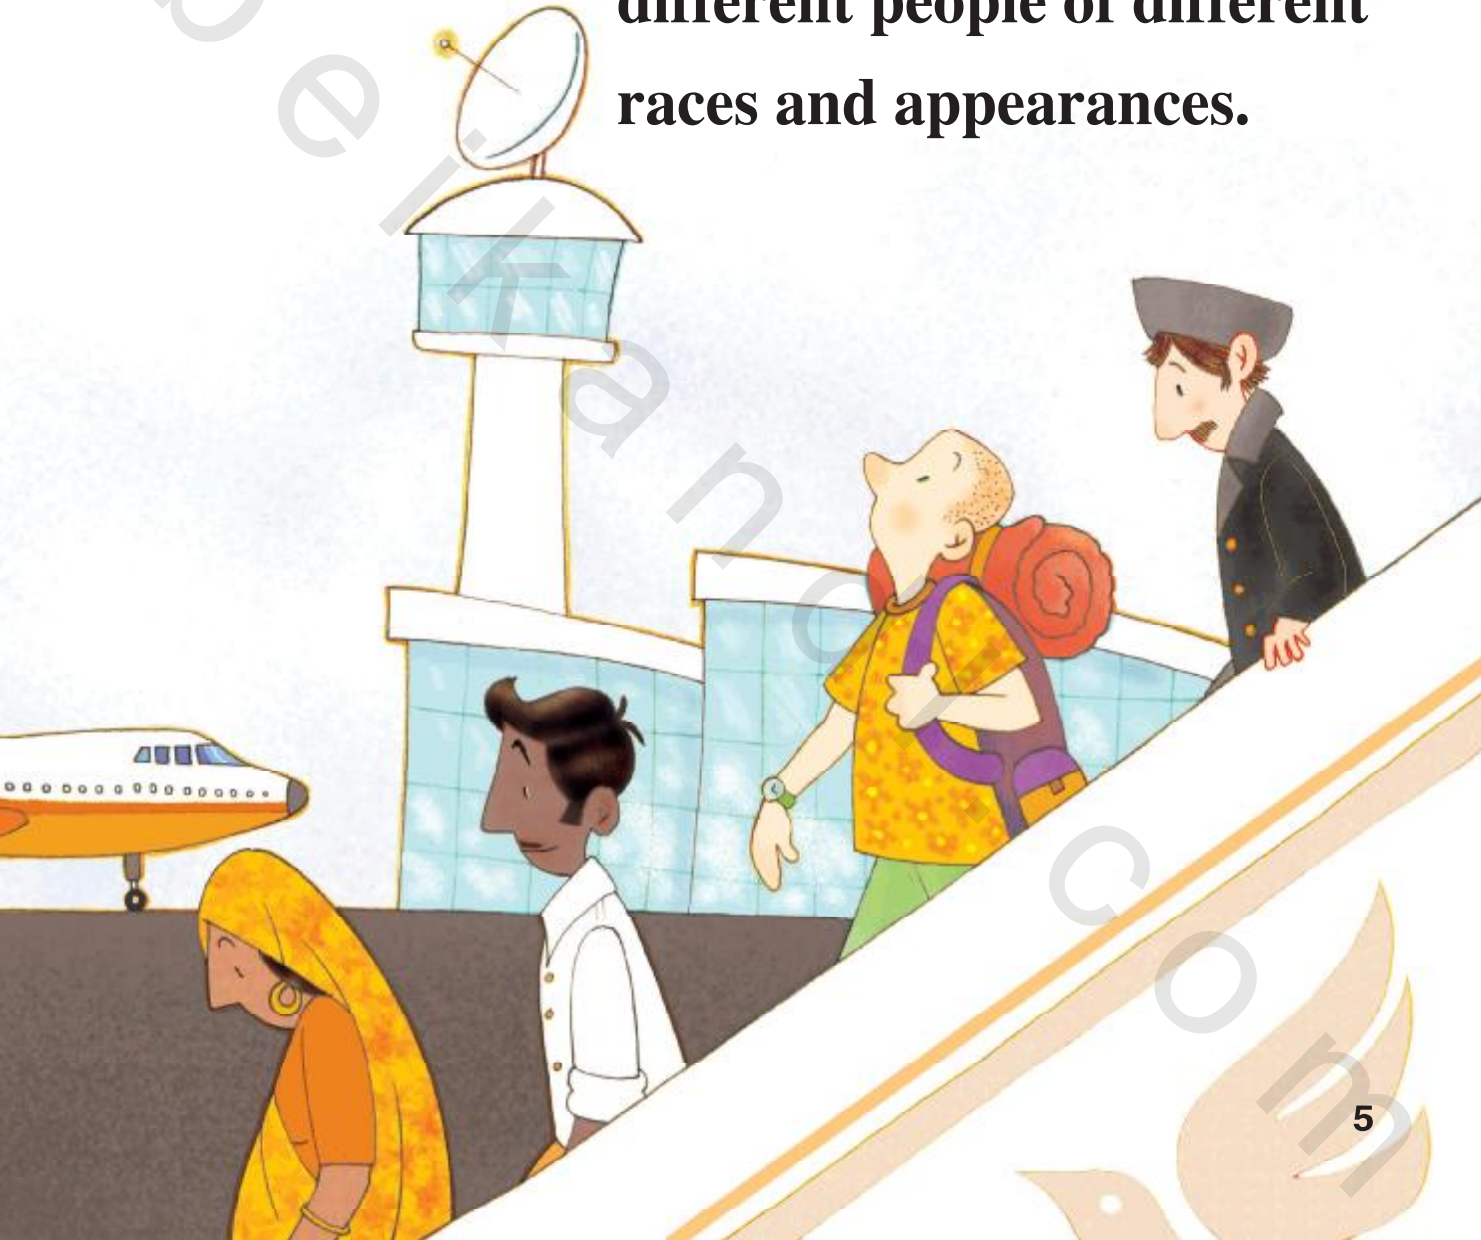

The toys differ in color, shape and size which make them very attractive, beautiful and enjoyable to kids.

**The airport is like a toybox.
It contains many different
things which make it
a wonderful and beautiful place.**

**At the airport, we see
different people of different
races and appearances.**

People wear diverse clothes of different styles and colors.

Some wear heavy clothes and others wear light clothes.

**At the airport, we hear different
languages and accents.**

**People's emotions differ at the airport.
One is happy because he is coming back
home to his family and another is sad
because he is leaving.**

**At the airport, we see people
doing different jobs.**

**We see the pilot, the air hostess,
the officer, the doctor, and the
shop keeper,**

the taxi driver, the cleaner, the porter and others.

**People have different interests there.
One is reading a newspaper, another
one is having a meal, and a third is
arranging his luggage.**

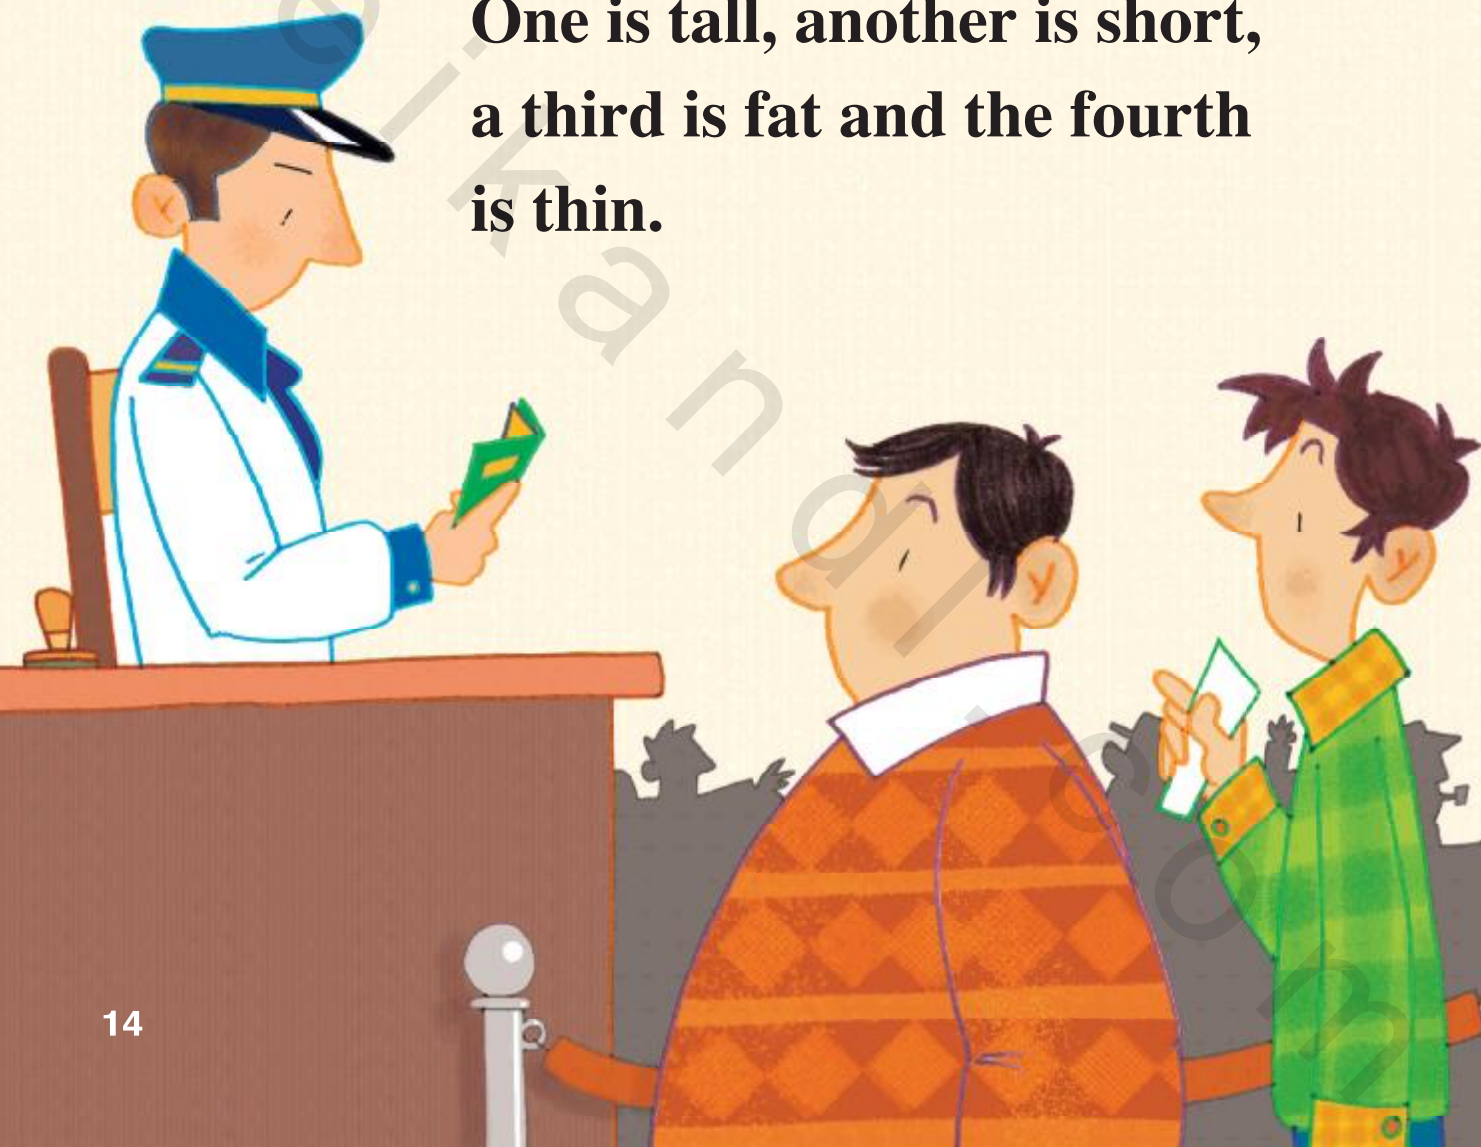

**At the airport, we see men and women,
kids and old people.**

**People look different from
each other.**

**One is tall, another is short,
a third is fat and the fourth
is thin.**

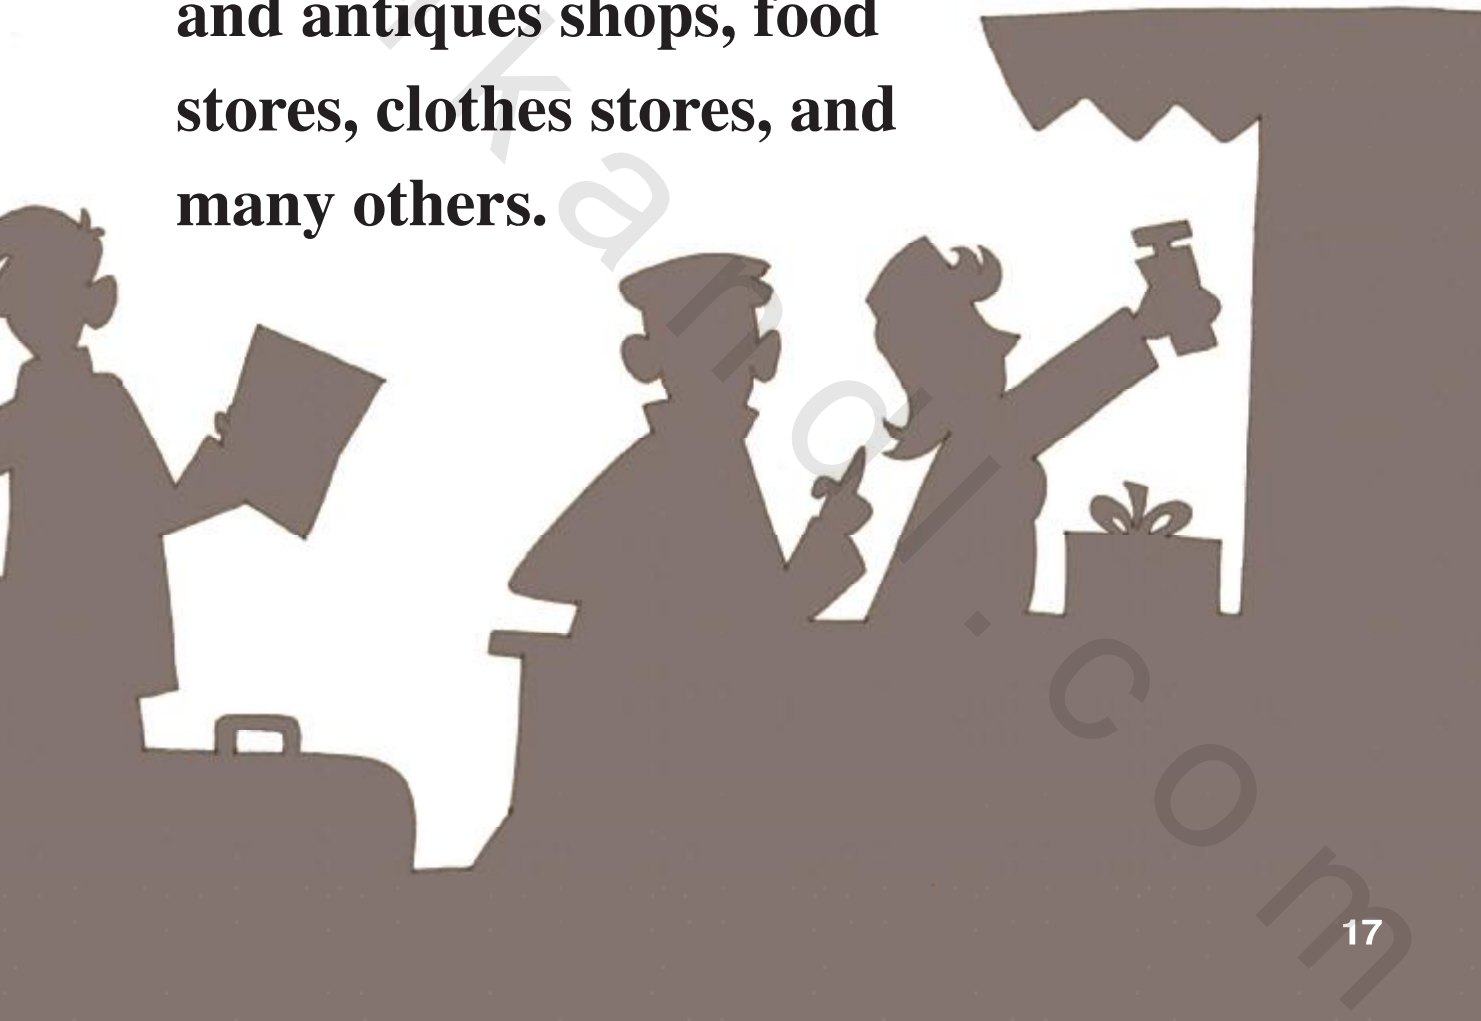

**Some passengers are healthy, while
others are sick.**

At the airport, there are many places to go for shopping, bookstores, gift and antiques shops, food stores, clothes stores, and many others.

We see some people traveling alone.

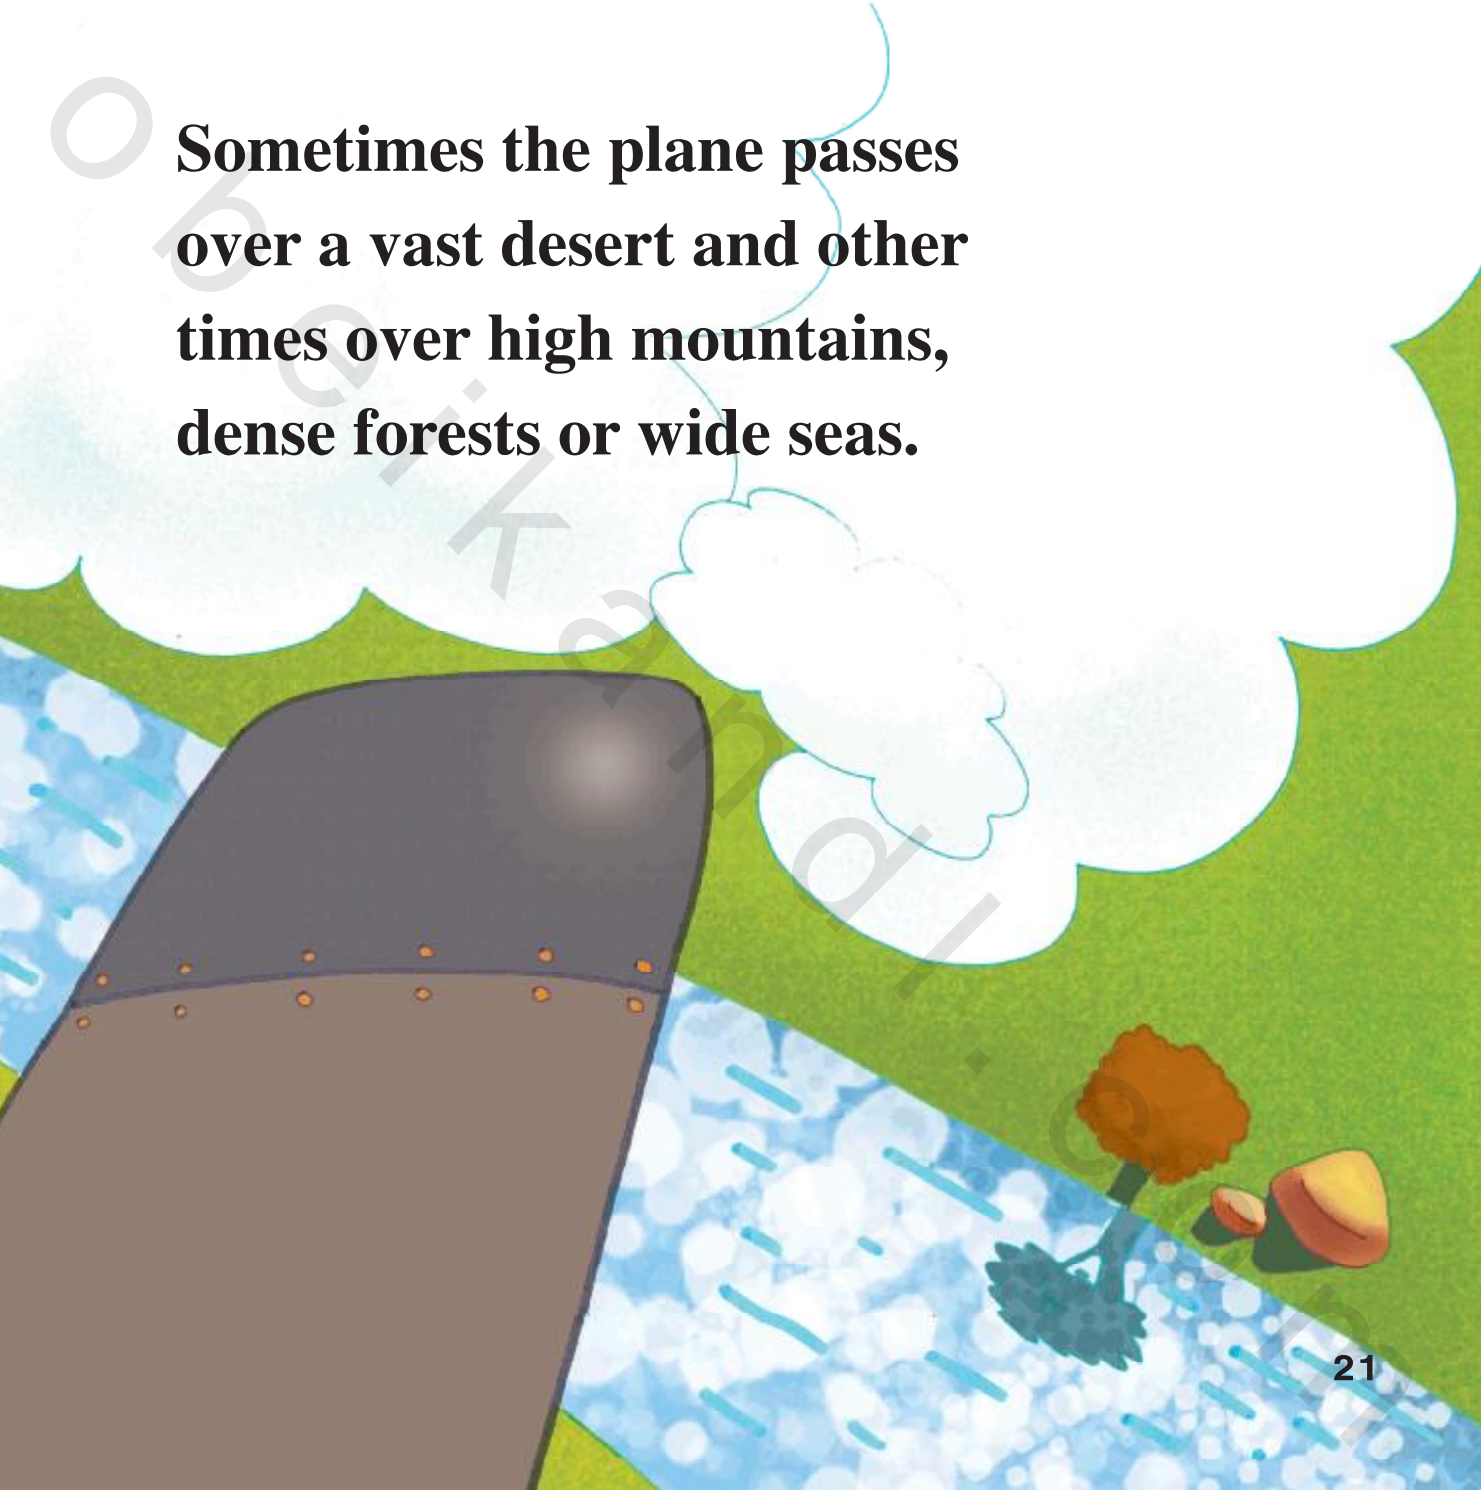

**While others are traveling with
their families or in a big delegation.**

From the plane, a passenger sees many sights.

**Sometimes the plane passes
over a vast desert and other
times over high mountains,
dense forests or wide seas.**

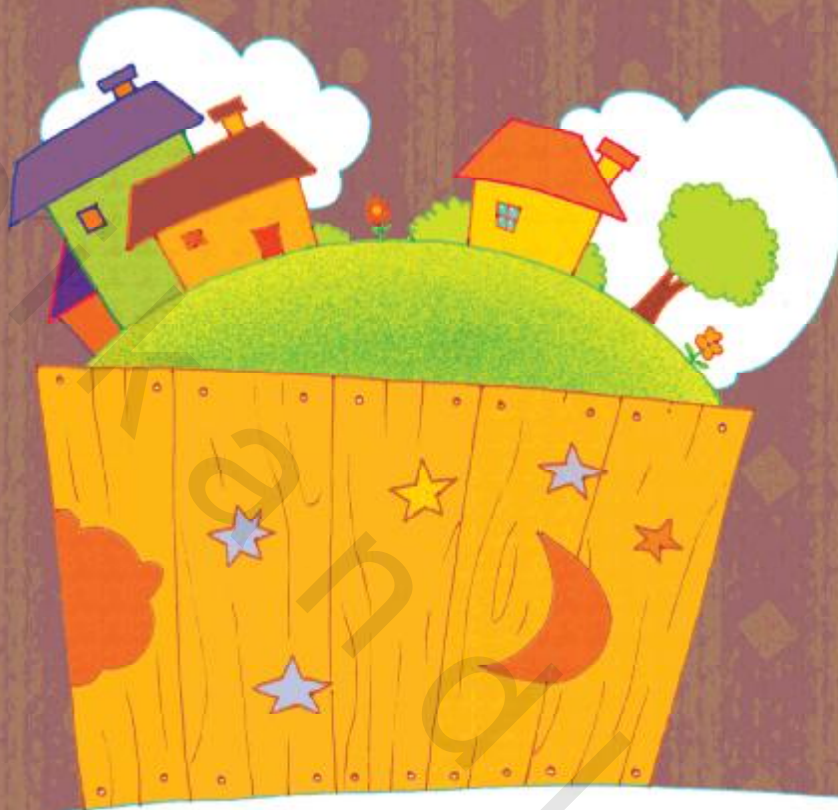

**Some travel by day and
others travel at night.**

Some other people spend a whole day, and night while traveling.

**Our world is as beautiful as the airport
because like the toybox, it contains many
different things.**

The more diverse it is, the more it is beautiful.
