The good pharaoh Akhenaton

Ruled Egypt for 17 years during when the capital changed from Thebes to Akhetaton in Tell-El-Amarna, El-Menya. Well known for his fair, just and romantic character. He changed the national religion from the Amon to the one deity Aton, the power coming from beyond the horizon.

Queen Nefertiti

Akhenaton's beautiful wife. She has a strong character, and likes to help and support her husband.
Takes care of her 6 daughters.

Priest Mery-Ra

The king's deputy and his trusted right hand.
Always wearing the priesthood traditional costume which is the panther skin.

Nehsy, the chief of guards

His name means "nubian"; well known for his courageous, intelligent and loyal character. Trustee on political and military secrets.

Kemet

Black smart cat, like the fertile black land of Egypt. Curious to learn everything and makes the good deeds in life. Known for his sense of humour.

Miaow

White adventurous cat. Together with her friend Kemet they try to stop any wrong or evil doings, especially from Set. She likes studying Egyptian history.

Set

A mix of a Jackal and a wolf. Wrong doing, always falls in troubles and often corrected by the cats.

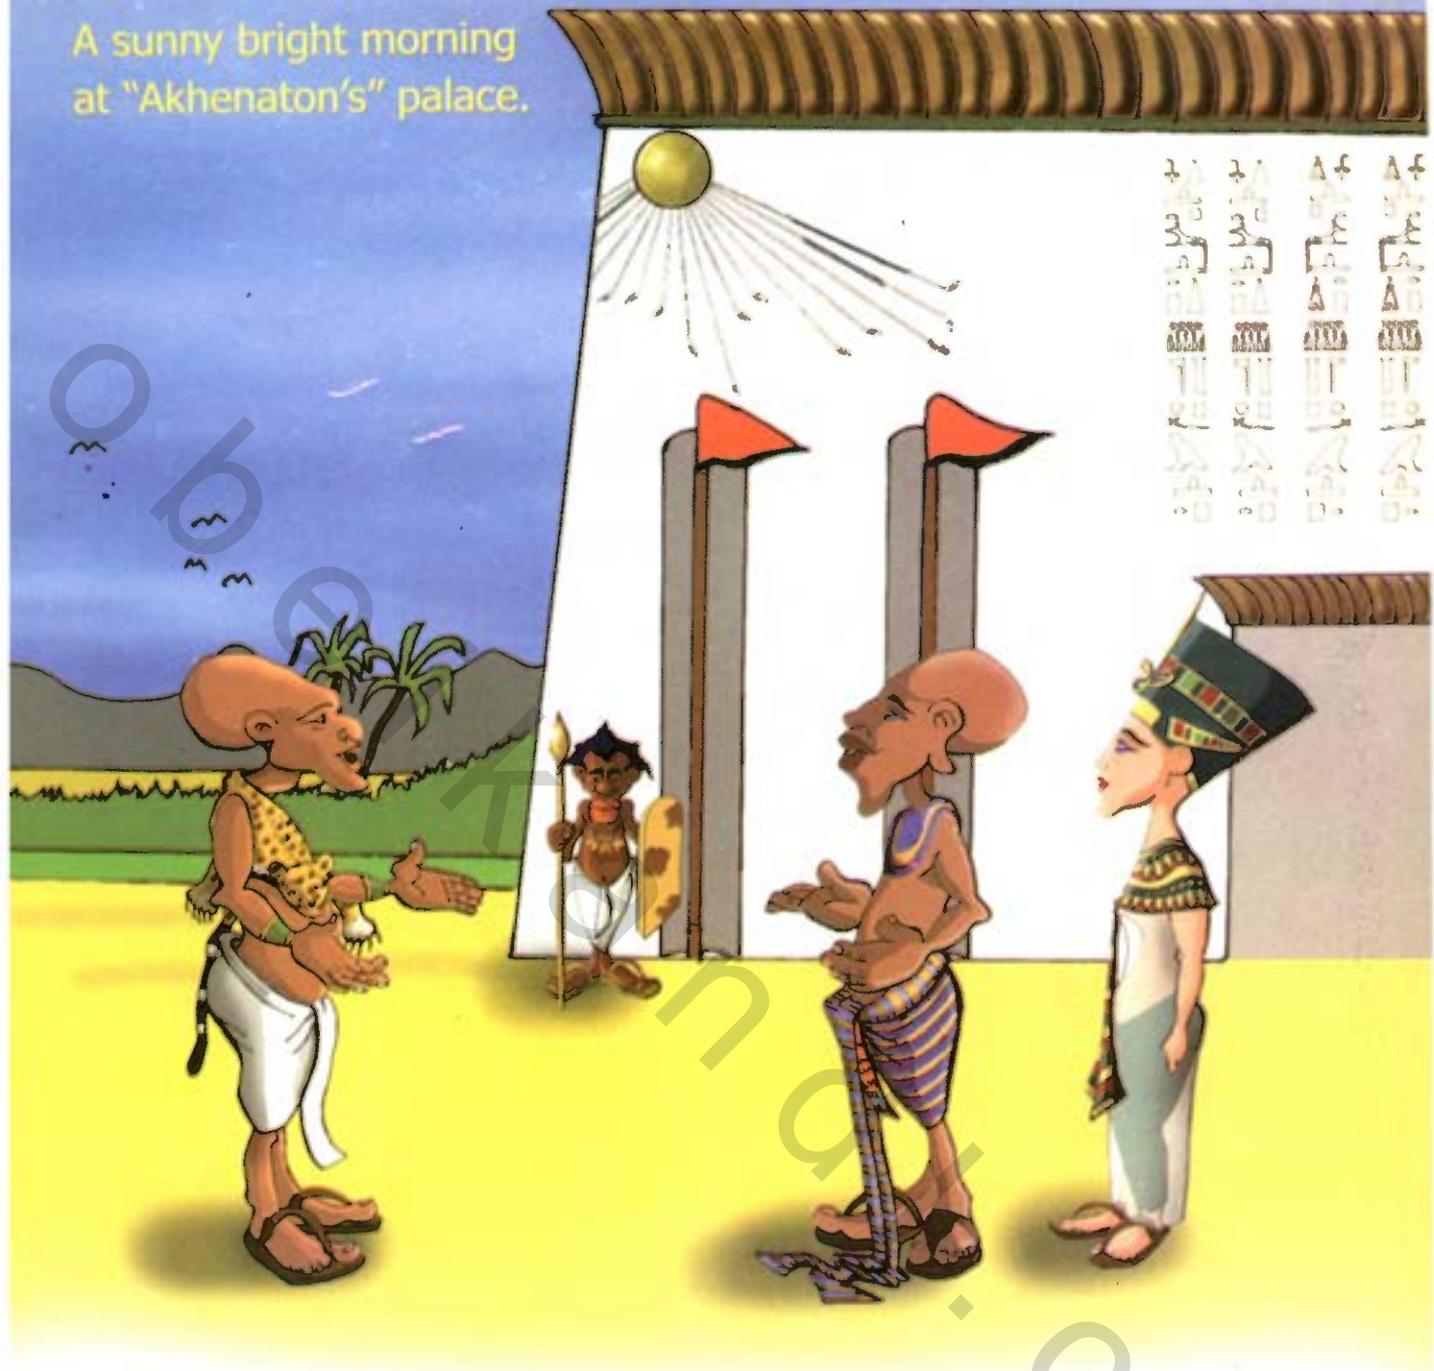

NuNu

Small boat made of papyrus stems, owned by Kemet and Miaow.

It is a time traveling boat. In few moments it goes from one time to another; from future to past to present.

The two good cats use it to chase Set.

A sunny bright morning
at "Akhenaton's" palace.

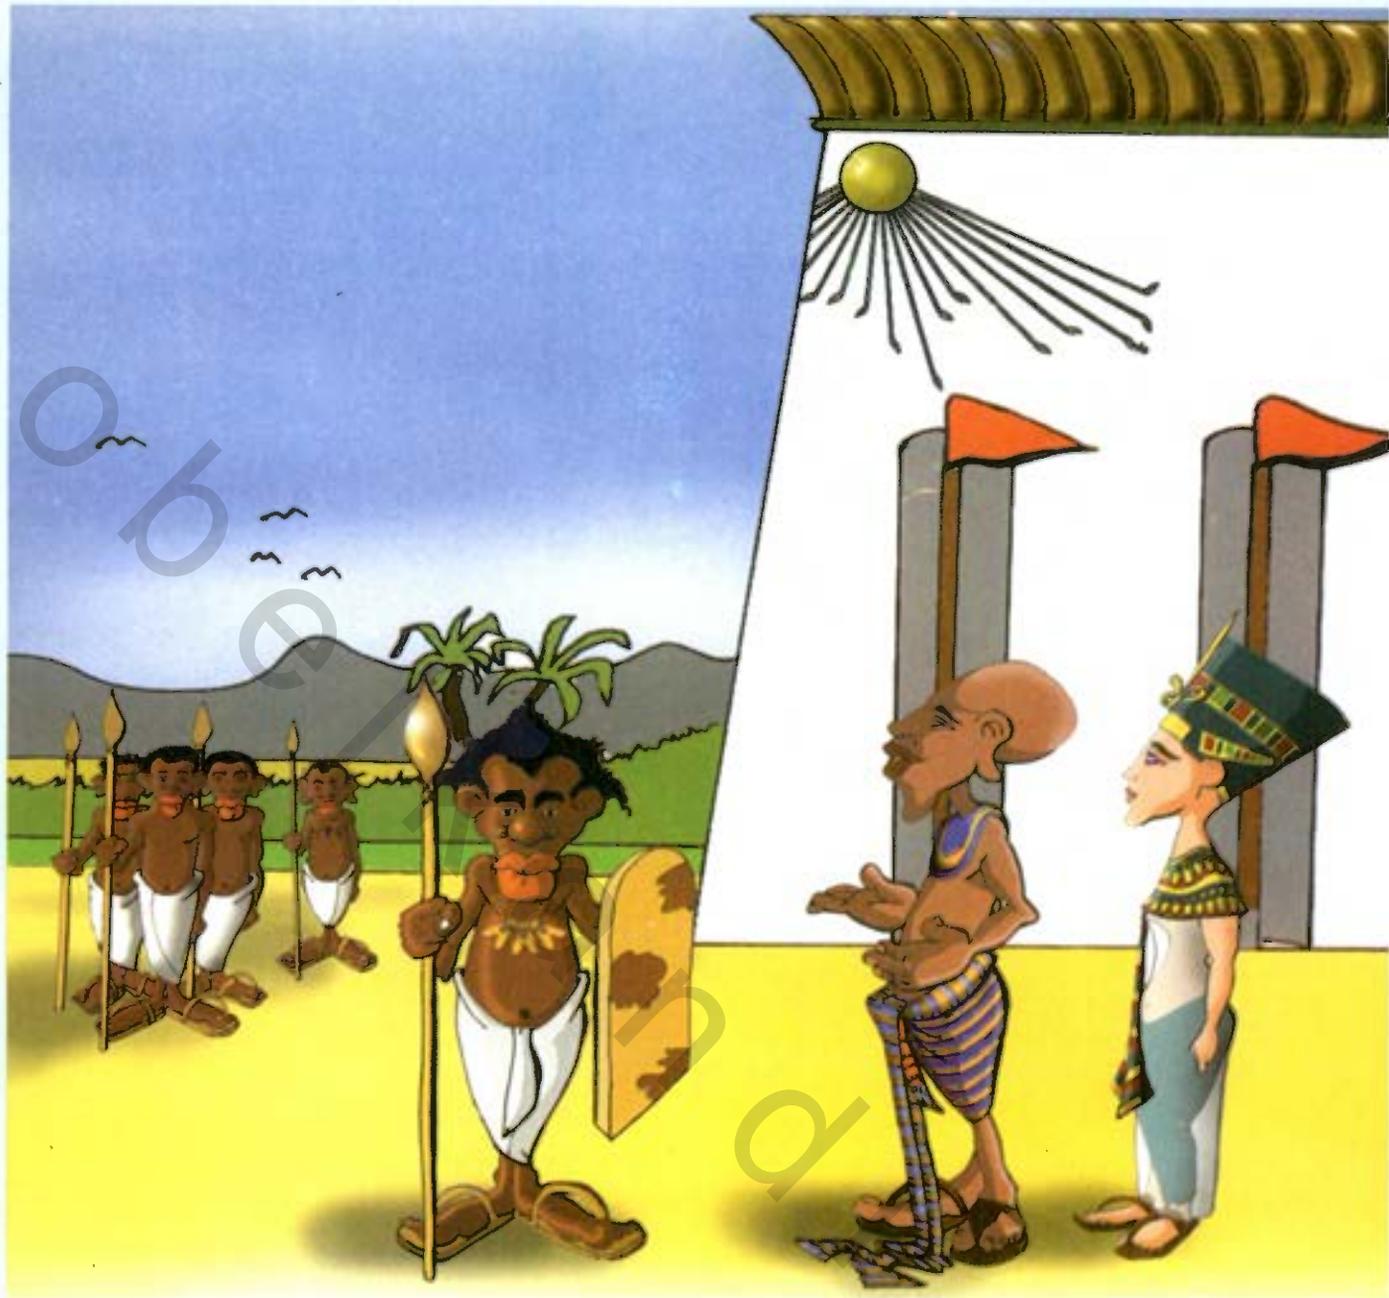

Akhenaton: Another beautiful and sunny day here in my city "Akhetaton", capital of Egypt. "Aton" is shining on us with his warm rays.

Nefertiti : Yes, my king. (Talking to the priest) Priest "Mery-Ra" how is every body in our beloved country, Egypt?

Mery-Ra : Everything is fine but "Nehsy", the loyal guard, has got some news about Set.

Akhenaton: Proceed "Nehsy", speak.

Nehsy : We received some news from the future that “Set” is creating problems.

Nefertiti : From the future! When ?

Nehsy : Around the 21st century.

Akhenaton: What has “Set” done this time?

Nehsy : Our investigations confirm that he was seen throwing dirt and garbage in the River Nile.

Akhenaton: How sad! Call immediately for the two good cats Kemet and Miaow.

Nehsy : (To his soldiers) fetch me the two smart cats Kemet and Miaow.

Kemet and Miaow on their way to the palace.

Kemet: The king has ordered for our attendance at the great palace “Pr-aa”.

Miaow: It seems that there is something that upsets him.

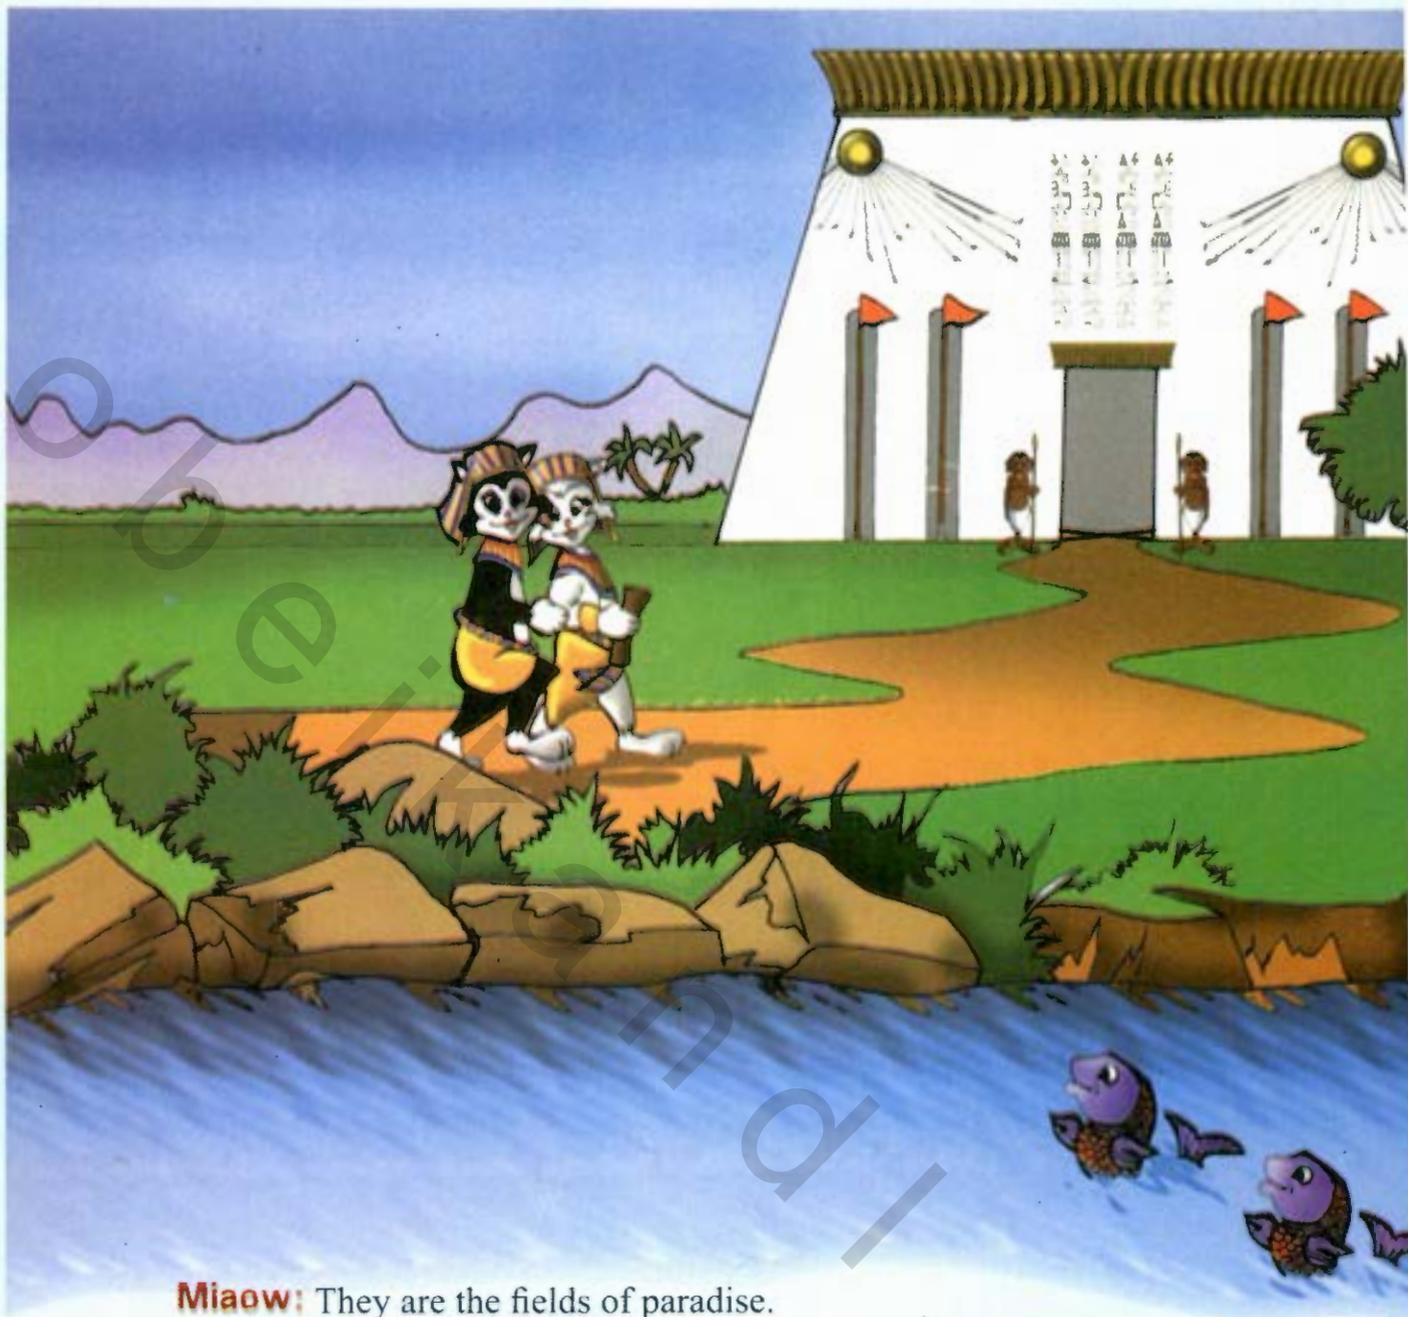

Kemet: Take a look at this temple wall, Miaow; what do these depicted scenes tell? Did you notice that some of them are colored?

Miaow: Yes, there are scenes of the pharaoh and his wife paying respect and homage to “Aton”.

Kemet: But do you see the writing? What is it?

Miaow: It is the royal sacred inscriptions, ritualistic texts and “Aton” hymns. I read once that these texts help the king and his wife to end up at the fields of the “Iyarro” in the afterlife.

Kemet: What are these “Iyarro” fields?!

Miaow: They are the fields of paradise.

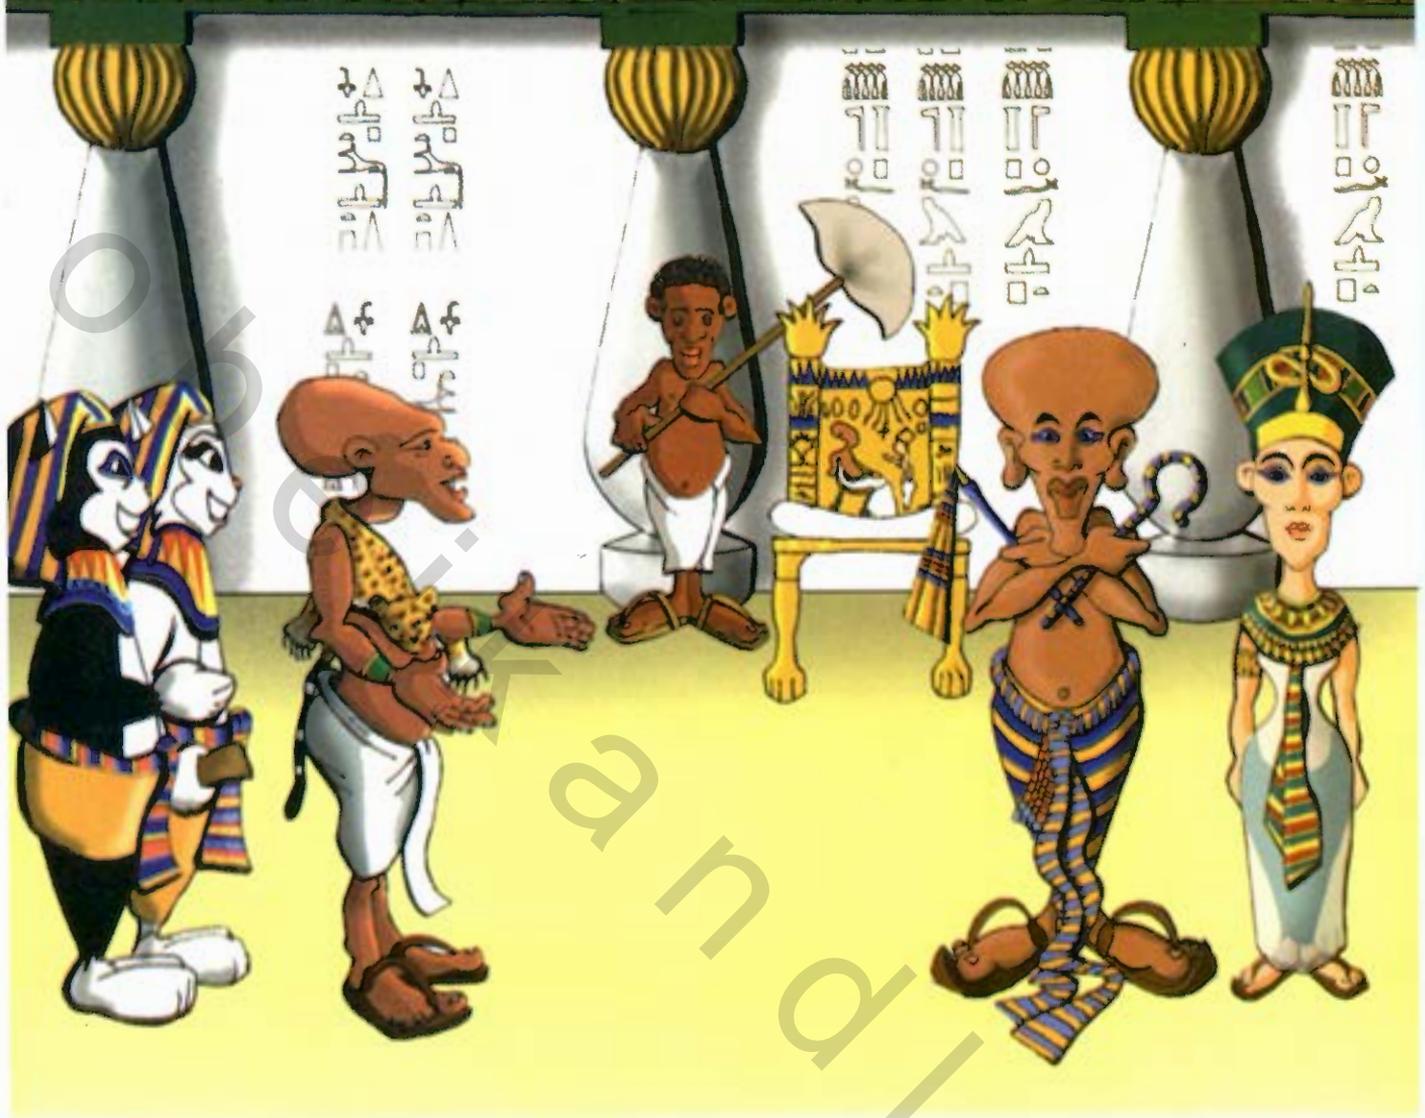

Kemet: I remember now. I saw them once painted on a papyrus.

Miaow: Yes, but to reach paradise you have to be a good person and to do right deeds not the wrong.

Kemet: Like not taking anything that does not belong to me, or never make my parents unhappy and to be obedient to God.

Miaow: That's right. One of the important questions we shall be asked in the Day of Judgment is: "Did you pollute the River Nile?"

Kemet: It is wrong to pollute the River Nile because it's the Creator's gift to us. It is the key of life in Egypt.

Priest : (To the king) “Kemet” and “Miaow” are here my Lord.

Akhenaton: Hello “Kemet”, Hello “Miaow”. Please, come closer.

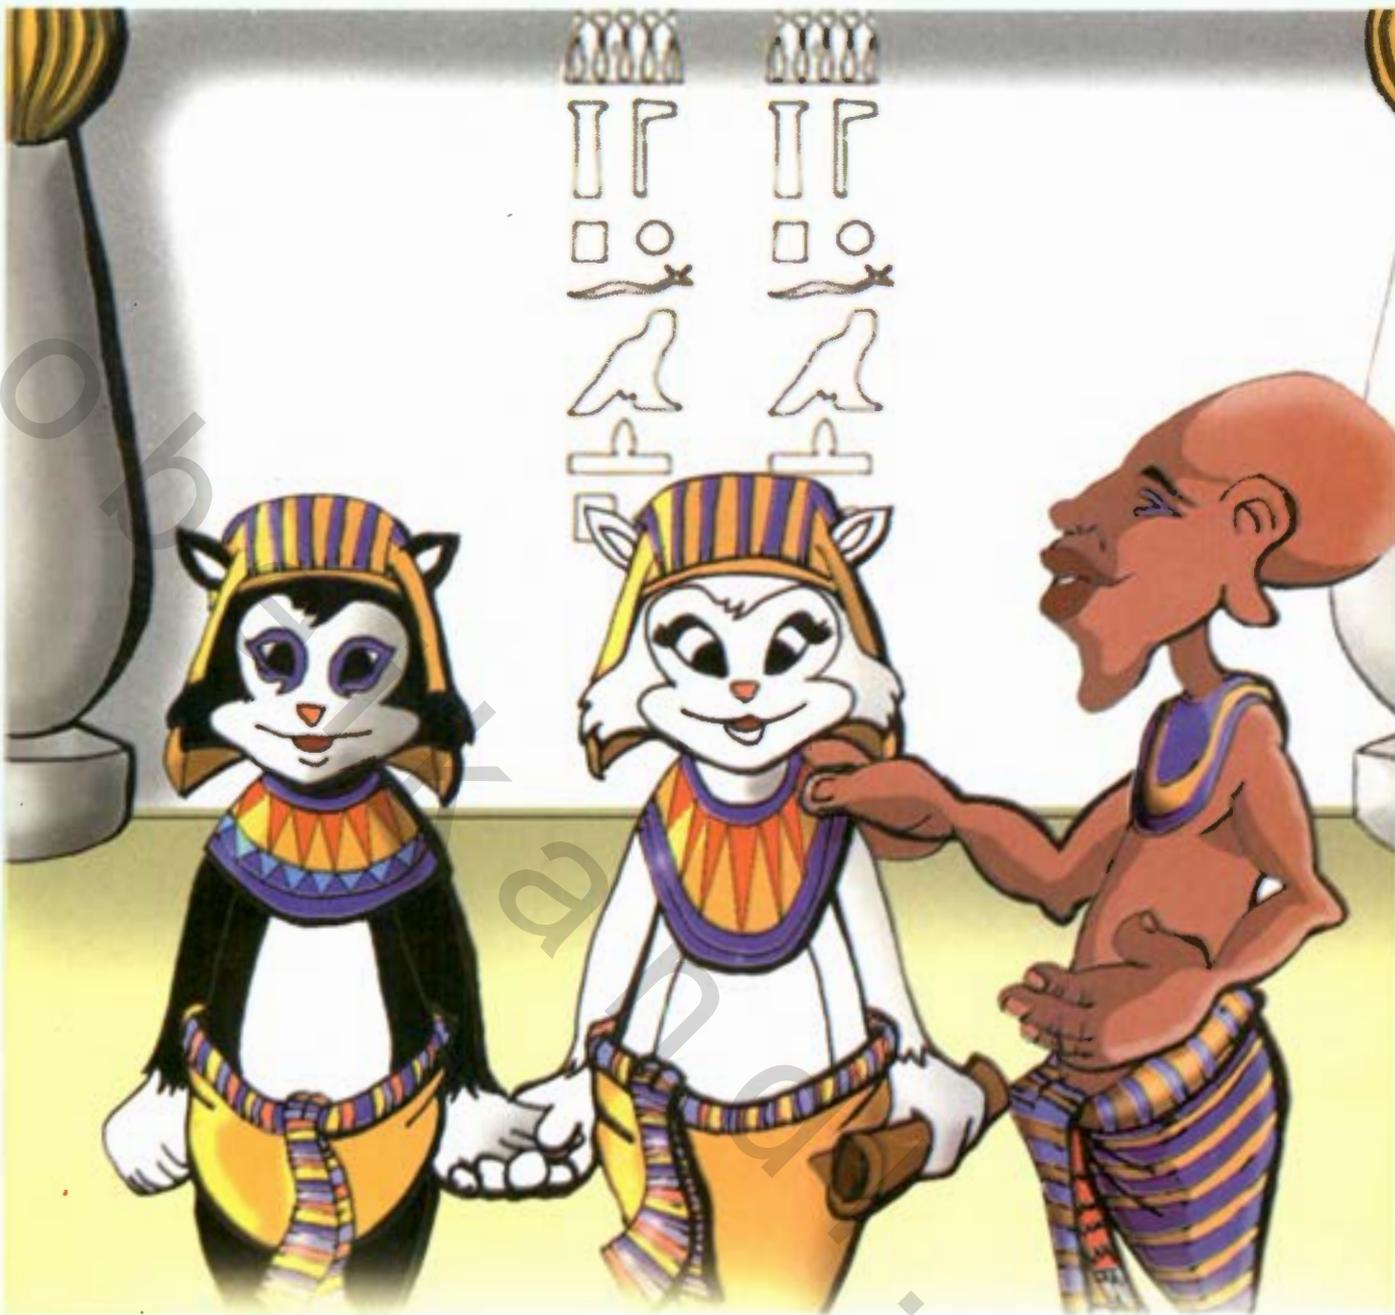

Nefertiti : Are you ready for a new adventure, cats?

Kemet & Miaow : (Together) Yes, my queen, we are always ready.

Akhenaton: “Set” was witnessed polluting the River Nile in the 21st century and I am sure you are fully aware of how crucial to keep the River Nile clean.

Priest : The River Nile brings us drinking and irrigating water.

Kemet : And its flood brings silt and mud that enriches the soil.

Akhenaton: What is your plan?

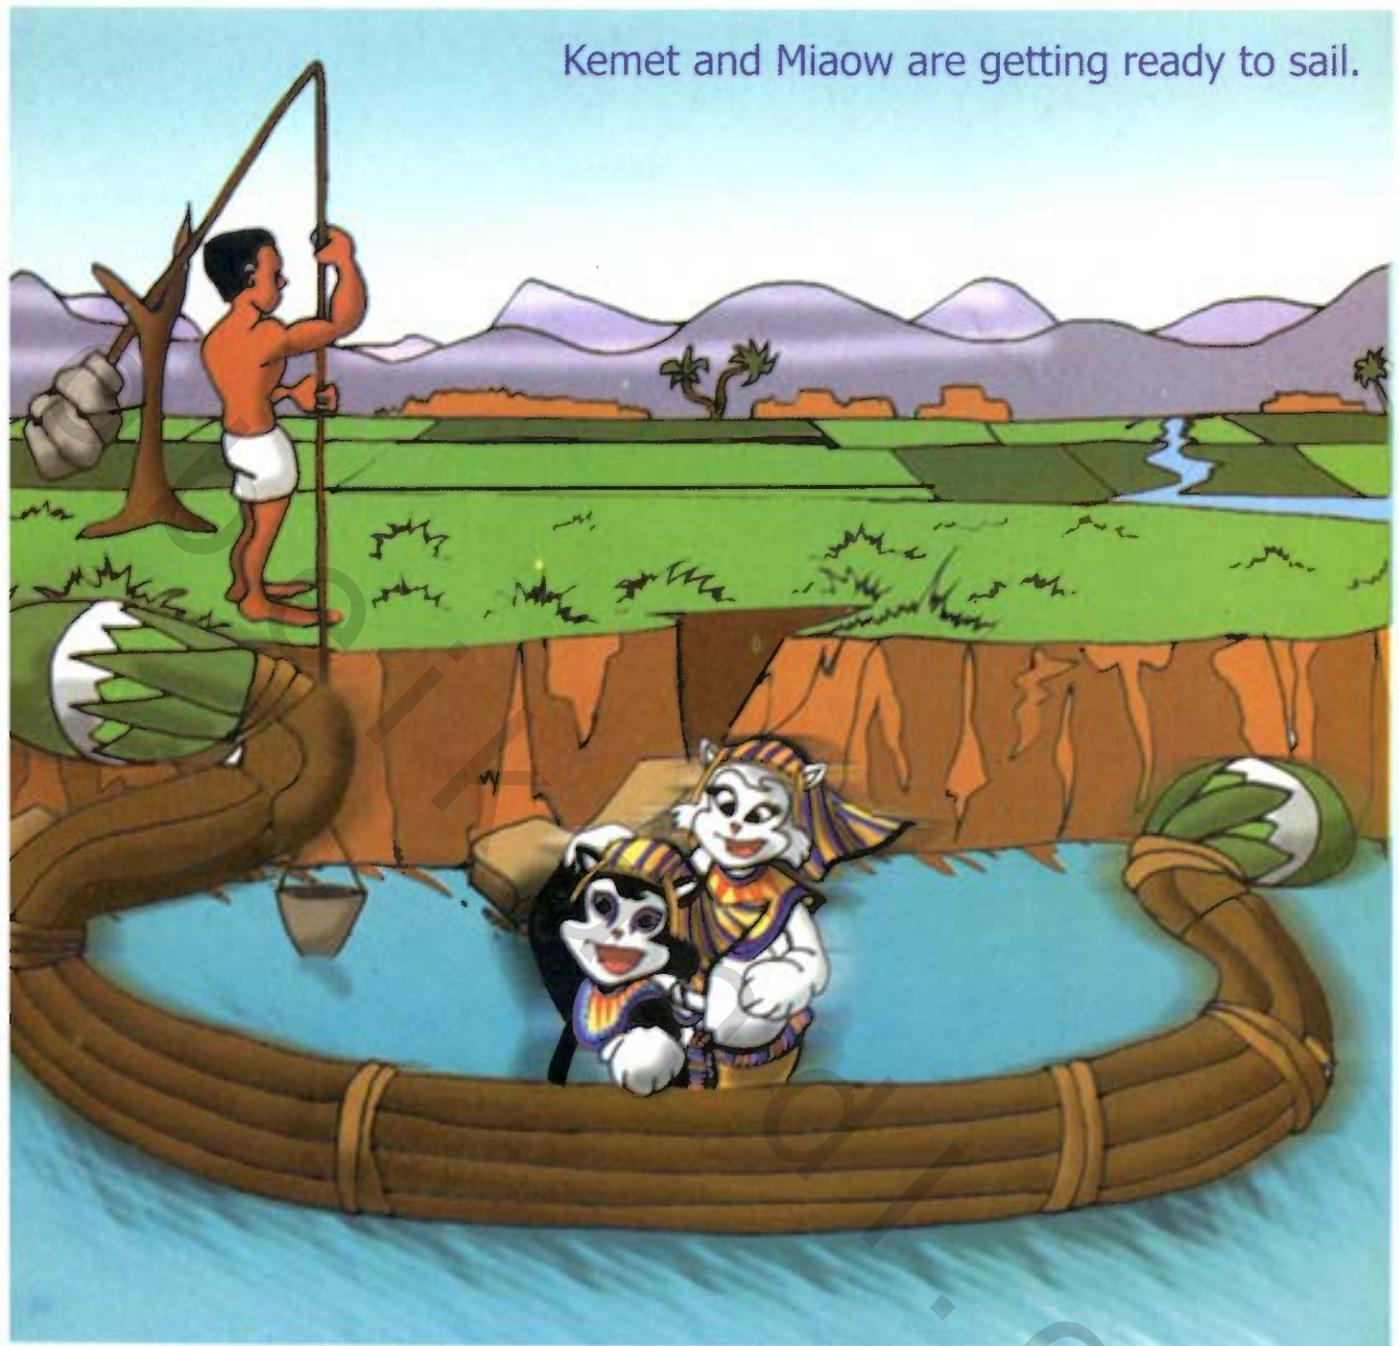

Miaow : With the help of our time traveling papyrus boat “NuNu”, we shall go the 21st century.

Kemet : When we reach there, we will search for “Set” and warn him to stop polluting the River Nile.

Akhenaton: Great, I wish you success, and always remember that I trust you.

Kemet & Miaow : Thank you, my lord.

Kemet and Miaow are getting ready to sail.

Kemet : Our boat “NuNu” is in a good condition. Now we can start our trip to the 21st century.

Miaow : We are going to scream our secret words which start the fast sailing through time.

Kemet : I will start the countdown
Three .. Two .. One .. Go.

**Kemet &
Miaow** : (Together) Nefer nefero.

Miaow: We arrived at Cairo city, capital of Egypt. Look!!
How beautiful!

Kemet: What are all these huge buildings?

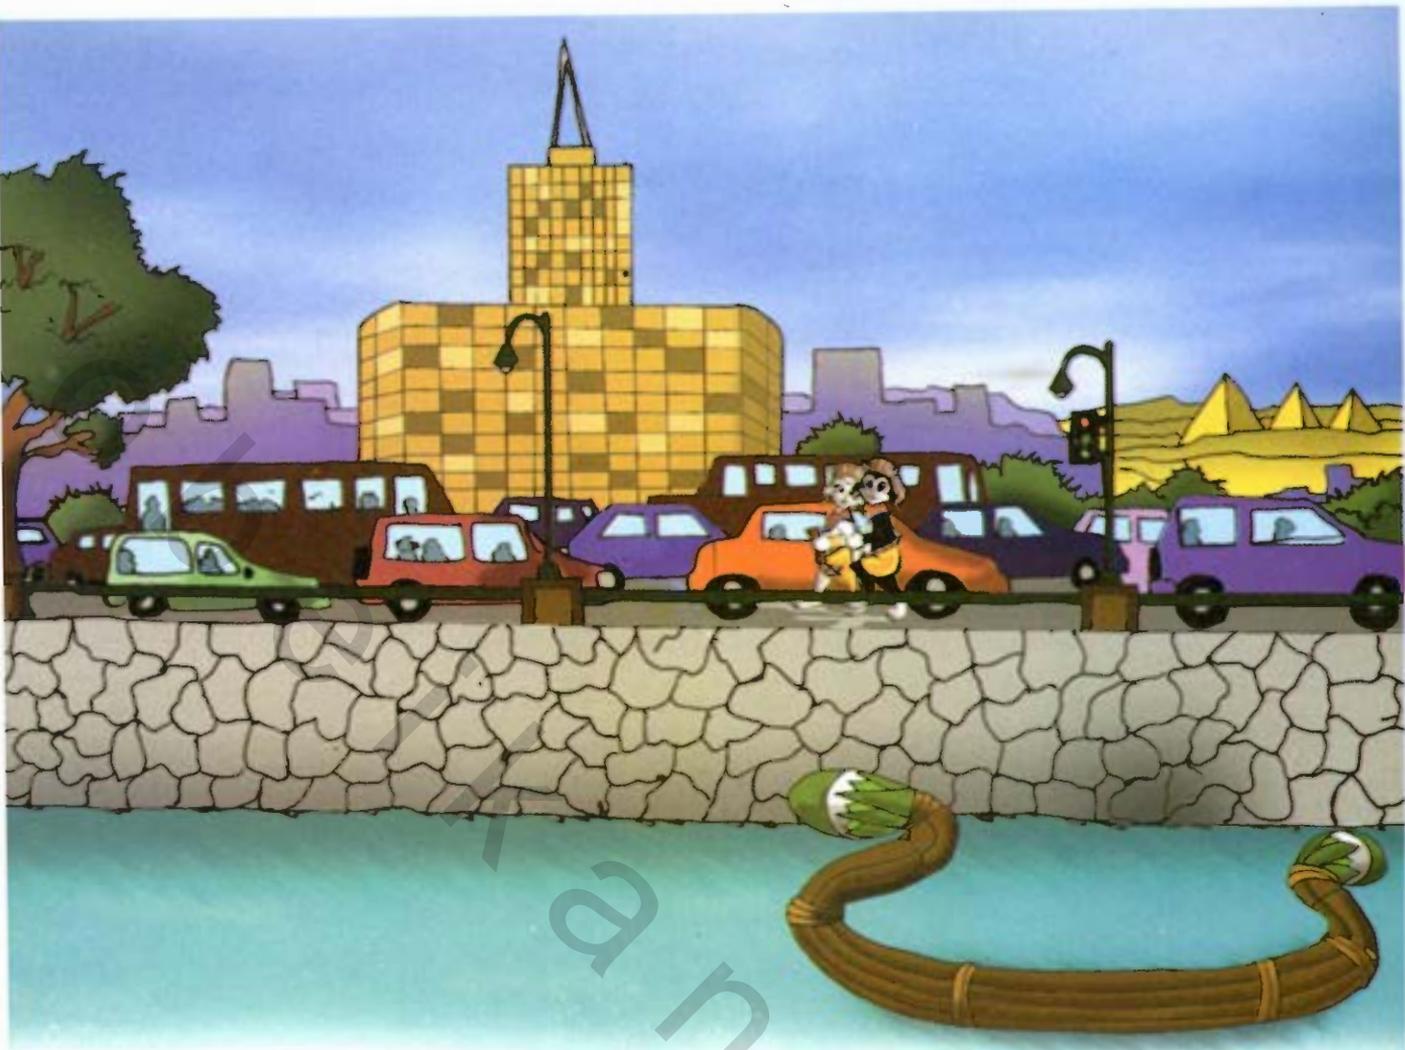

Miaow: That building is the Cairo Tower. The Egyptians built it in the form of lotus flower.

Kemet: Oh, the pharaonic sacred symbol.

Miaow: Yes, and this circular building is the radio and television broadcasting station.

Kemet: It is really huge but what is its function?

Miaow: Broadcasting is the process of transferring sound, through sound-waves from far distances, to a small radio set in your hand. This helps to propagate news, knowledge and culture, all over the world.

Kemet: What is the difference between the Radio and the TV?

Miaow: TV transfers the sound and picture together through long distances to a small set named television "TV".

Kemet: Oh!! look at these metal vehicles. They are faster than our chariot wheels.

Miaow: They are called cars and they work by means of oil.

Kemet: But their fumes pollute the air.

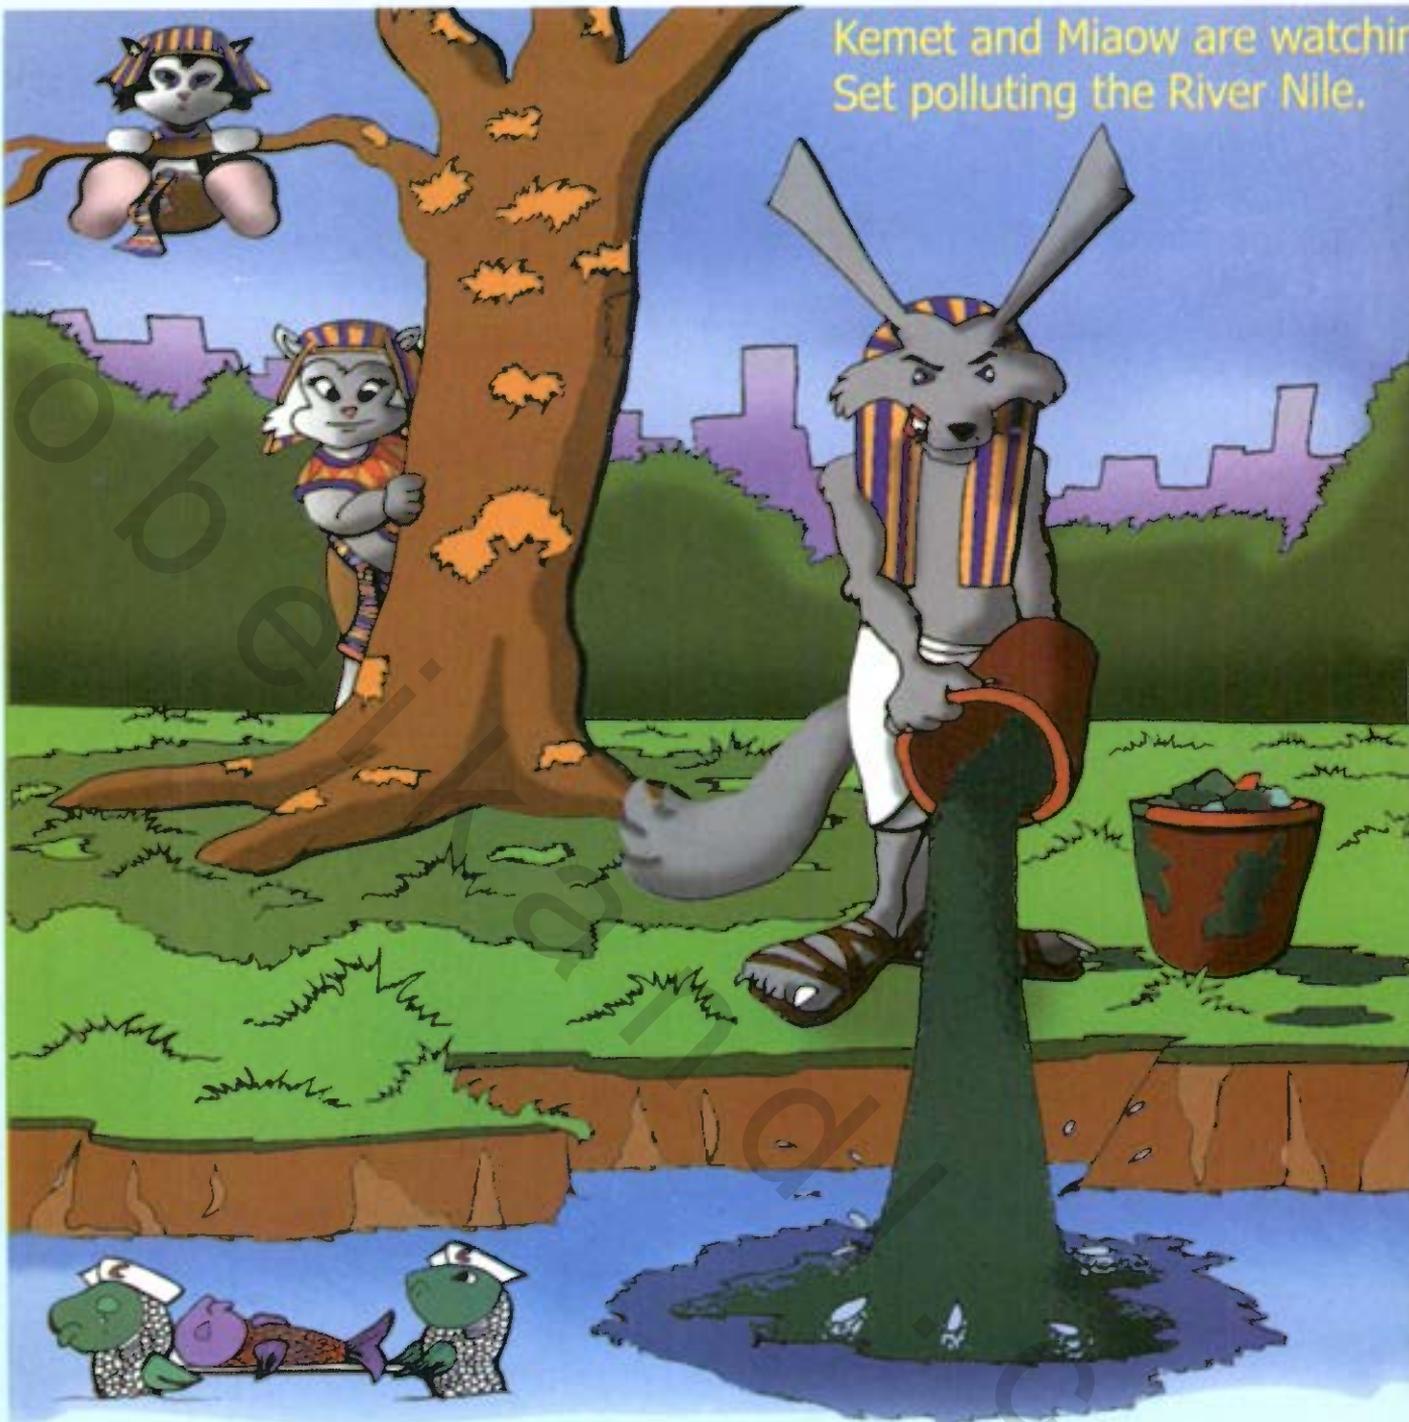

Miaow: You are right, fumes also kill trees and flowers and infect people with fatal diseases. But they invented a lead free oil that decreases pollution. They are thinking, now, of using the solar power as well.

Kemet: Oh! Look!! These are our grandfathers' pyramids and the sphinx.

Miaow: I think it is high time to fetch "Set".

Kemet: Sure.

Kemet and Miaow are watching Set polluting the River Nile.

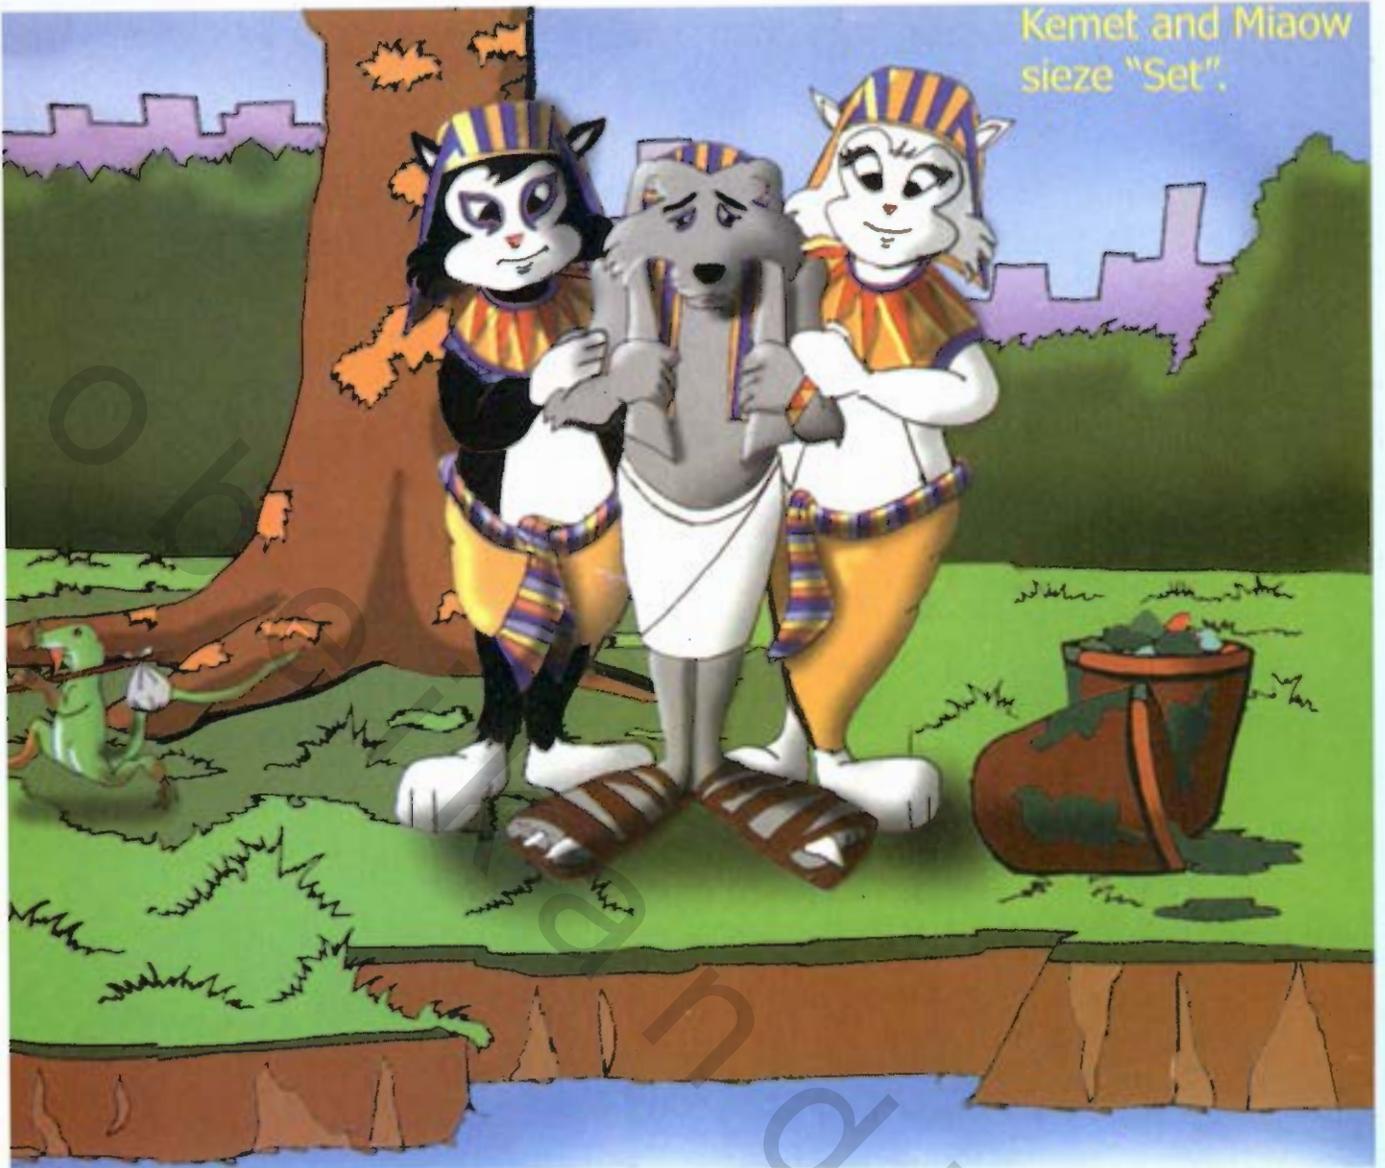

Kemet: Why is he throwing waste and bad chemicals in the River Nile?

Miaow: Because he finds it easy to dispose, instead of scientifically, getting rid of it.

Kemet: You mean he is lazy?!

Miaow: Sure!! He is polluting the sacred water that we drink from and irrigate our land with.

Set : My lord! how did you find me?
What is the wrong, I committed?

Miaow: You are not respecting the gift which was given to us , the
River Nile.

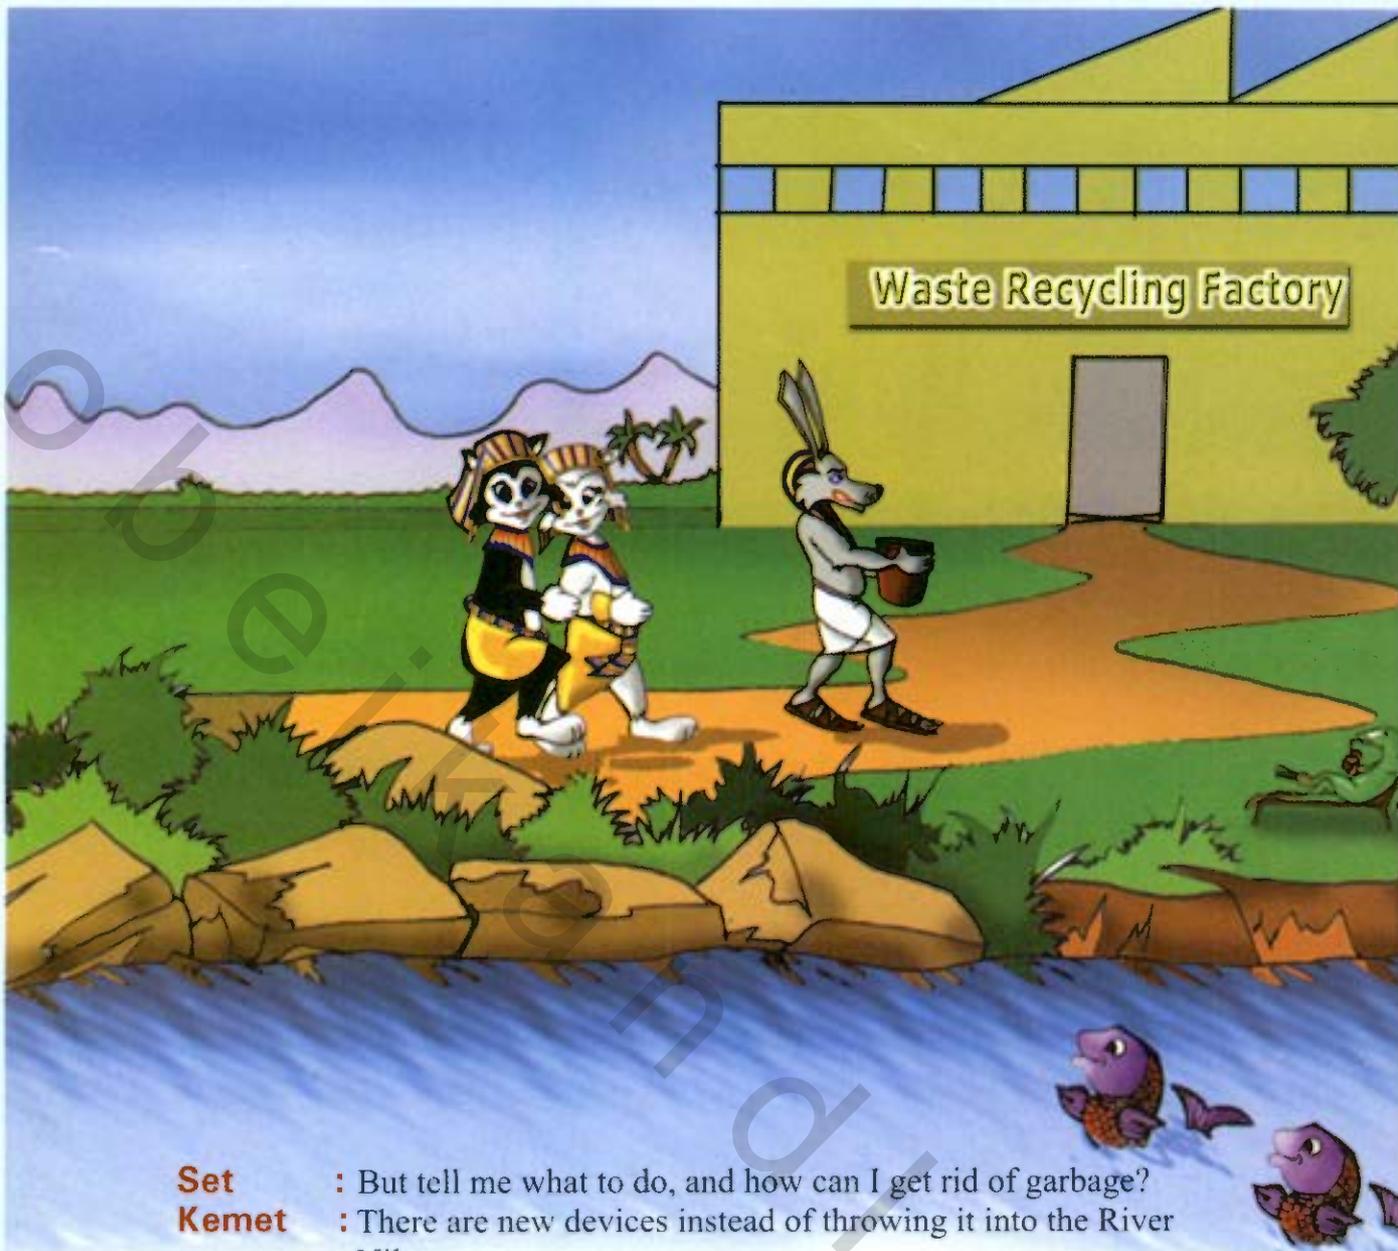

Set : But I only got rid of some garbage, no more!!

Kemet : You should have delt with it in a more civilized way.

Set : I am sorry... I guess I was lazy enough not to do any effort.

Miaow: Are you aware of your mistake?

Set : Yes, and I promise not to do it again.

- Set** : But tell me what to do, and how can I get rid of garbage?
- Kemet** : There are new devices instead of throwing it into the River Nile.
- Miaow** : Actually, we can also make use of it by turning it into something useful for our beautiful country.
- Kemet** : For correcting your mistake “Set”, take your filled bucket to the recycling factory and deliver it there. They will deal with it in a correct way.
- Set** : I am happy correcting my wrong deeds, and I promise I will never through garbage in the River Nile again.
- Kemet & Miaow** : We are happy to hear that.
- Miaow** : We are sure that “Akhenaton” and “Nefertiti” will be happy as well. It is now our time to go back to our beautiful boat “NuNu”.
